EDUCATION

Miami University - Master of Arts | Economics – 2021-2022
Miami University - Bachelor of Science | Economics – 2018-2022
Cumulative University GPA – 3.96
University Honors Program and Business Honors Program

WORK EXPERIENCE

Teddy Consulting LLC – Data Architect **June 2025-Present**

- Led development on internal facing React application for loan officers to stand up new prospects in LOS systems, handled development of frontend, backend and security utilizing Azure.
- Product Manager and Software engineer on customer facing loan portal, unifying disparate data sources and saving $160,000 in annual Salesforce costs. Developed frontend, backend and all security utilizing Azure.
- Managed standup and creation of data integration pipelines between banking systems using Matillion, Azure Data Factory and Snowflake Stored Procedures
- Architected full data migration from legacy sql server systems to Snowflake and Azure Data Factory architecture, including backfill, incremental data loads, CI/CD and engineering training

Sparq – Director of Data Engineering, Solution Architect **May 2024-July 2025**

- Responsible for setting and leading the direction of the data engineering practice at Sparq
- Engineered telemetry data at Microsoft Casual Games to enable fast decision making. Reduced pipelines costs by 93% and execution time from 24 hours to 45 minutes
- Lead migration of legacy SQL Server system onto Snowflake data architecture utilizing ADF and DBT, reducing yearly spend by $165,000
- Personally deployed AI model for code development and testing, completing migration work in 1/3 of the time and saving client $2.5M in operational costs

Hakkoda – Data Engineer **Oct 2022-May 2024**

- Data scientist responsible for leading data engineering and data science client initiatives.
- Architected and led development of orchestration software to migrate data to 100s of Snowflake accounts while auditing for data cleanliness and completion.
- Architected solution and led team of engineers in the development of data science models in healthcare and their deployment in Streamlit for consumption.

OPEN-SOURCE CONTRIBUTIONS

Snowpark-Utilities

- Developed and published Python package that enables fast connections to Snowflake via Snowpark
- Library contains functionality to execute code in Snowflake in a more legible and faster manner than vanilla Snowpark
- Downloaded by 250 users a month

CERTIFICATIONS, SKILLS & AWARDS

- AWS Cloud Practitioner – March 2024
- Snowflake SnowPro Core Certification – July 2024
- Hart-Noble-Hall Award in Macroeconomics by Miami University – May 2022
- Python, SQL, Snowflake, Azure, AWS, Spark, Streamlit, OpenAI, DBT, Terraform, DataBricks

EXTRACURRICULARS & ACADEMICS

Summit Ski Patrol – Alpine Patroller **June 2024-Present**

- Alpine ski patroller at the Central Ski Patrol certified in Outdoor Emergency Care (OEC) and Outdoor Emergency Transport (OET)
